HEAD START CENTERS CLOSED

Preschool Services will be closing the Head Start Centers in Apple Valley, Victorville, Adelanto, Phelan, Barstow, Hesperia and Lucerne Valley due to air quality. PSD will be monitoring wind changes and working with South Coast AQMD to ensure appropriate re-opening of these centers. The families are being instructed to keep their children inside and not let them out to play.

In addition, PSD will be closing the part day Head Start centers in San Bernardino, Colton, Fontana, Rialto, Redlands and Yucaipa through Friday. At this time, the Full Day Head Start centers in the SB valley will remain open to assist families who are working if they chose to use Head Start services. The enrollment in the SB valley has been very low as most families have more than one child and with the school districts closed, they are keeping the children home anyway.

PSD staff will be at all the sites to answer telephones or handle any walk in traffic. If you have any questions, please contact (909) 387-2355.
